

7/22/16

Subject: Certification of Compliance – Bisphenol A (BPA)

This letter is in response to your request for more information regarding the use of Bisphenol A in our products. Please be advised that any fluoropolymer materials used and processed in our facilities, do not contain Bisphenol A.

Harbour Industries relies on literature from our suppliers to guarantee compliance of our products. Although, Harbour does not analyze for BPA content, based on the documentation of our suppliers and our supplier approval program, we do not expect this substance to be in our final product.

If you have any question please feel free to contact me.

Sincerely,

William Gonyaw
Engineering Manager
Harbour Industries, LLC.
