Harbour INDUSTRIES
High Performance Wire & Cable

1/27/2026

Dear customer,

In 1995 the Governing Council of UNEP started a call for action with regards to persistent organic pollutants (POPs). In 2001 the goal was realized in Stockholm, Sweden with the adoption on the Convention which entered into force on May 17, 2004, with the latest implemented EU POP directive number (2019/1021) and amended directive EU 2025/1482 from October 28, 2025.

Since 2004 the Convention has amended the list of POPs in Annex A (Elimination), B (Restriction) and C (Unintentional production). The following is the listing as of December 2025.

Annex A

- Aldrin
- Chlordane
- Chlordecone
- Chlorpyrifos
- Decabromodiphenyl ether (commercial mixture, c-decaBDE)
- Dechlorane Plus
- Dicofol
- Dieldrin
- DDT
- Endrin
- Heptachlor
- Hexabromobiphenyl
- Hexabromocyclododecane (HBCDD)
- Hexabromodiphenyl ether and heptabromodiphenyl ether
- Hexachlorobenzene (HCB)
- Hexachlorobutadiene
- Alpha hexachlorocyclohexane
- Beta hexachlorocyclohexane
- Lindane
- Methoxychlor
- Mirex
- Pentachlorobenzene
- Pentachlorophenol and its salts and esters
- Polychlorinated biphenyls (PCB)
- Polychlorinated naphthalenes
- Perfluorocarboxylic acids, long-chain, their salts and related compounds
- Perfluorooctanic acid (PFOA), its salts and PFOA-related compounds
- Perfluorohexane sulfonic acid (PFHxS), it salts and PFHxS-related compounds
- Medium-chain chlorinated paraffins
- Short-chained chlorinated paraffins (SCCPs)
- Technical endosulfan and its related isomers
- Tetrabromodiphenyl ether and pentabromodiphenyl ether
- Toxaphene
- UV-328

4744 Shelburne Road, P.O. Box 188, Shelburne, VT 05482 •Telephone: 802-985-3311; FAX: 802-985-9534

Annex B

- DDT: can be used for disease vector control only;
- Perfluorooctane sulfonic acid, its salts and perfluorooctane sulfonyl fluoride: can be used for certain accepted purposes;

Annex C

- Polychlorinated dibenzo-p-dioxins (PCDD) “dioxins”
- Polychlorinated dibenzofurans (PCDF) “furans”
- Polychlorinated naphthalenes (PCN)
- Hexachlorobenzene (HCB)
- Pentachlorobenzene
- Polychlorinated biphenyls (PCB)
- Hexabromocyclododecane (HBCB)

Although the United States of America has signed the Convention it has yet to ratify the Convention. Harbour Industries aims to be good stewards. Harbour Industries LLC hereby certifies that no materials listed in the EU POP directive 2019/01021 last amended in 2025 are intentionally added to its fluoropolymer insulated products.

Furthermore, Harbour Industries LLC vendors certify that the fluoropolymer materials used for insulated wire and cable products have no intentionally added POPs substances as listed. However, we do not routinely analyze our products for the listed POP substances, nor do we require our raw material suppliers to do so.

Should additional information be required on this subject, please do not hesitate to contact us.
